DETAILED ACTION

1. This is responsive to the amendment after non-final filed on 30 March 2009.
2. Claims 1 – 12 and 15 – 45 are still pending and considered below.

Response to Amendment

3. The Claim Objections are withdrawn in view of Applicant's amendments.

Response to Arguments

4. Applicant's arguments filed 30 March 2009 have been fully considered but they are not persuasive.

Applicant argues that Roundtree does not disclose or suggest updating the request data to include the preferences containing the information omitted in the request data without further customer interaction.

The Examiner respectfully disagrees. Roundtree does indeed disclose updating the request data to include the preferences containing the information omitted in the request data ("the system server retrieves a protocol that identifies one or more restaurants to contact based upon ... the user's preferences as stored in personal data 38", [0048] see also [0022], FIG. 1, item 38 and related text) wherein updating the request data to include the preferences containing the information omitted in the request data does not require further customer interaction ("system server executes the querying process according to the protocol to make a reservation with one of the restaurants", [0045]). Applicant cites paragraph [0048] to show that the request requires

further customer interaction. However, what is taught in paragraph [0048] is a different embodiment than the one disclosed in [0045]. The Examiner is relying on the disclosure of [0045] where a user can select a restaurant category (such as Italian) and the system contacts one or more restaurants based upon stored user preferences (such as a list of favorite Italian restaurants). This is done automatically without further input from the user.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Since the only claim amendments were to address minor informalities and do not change the scope of the claims, claims 1 – 12 and 15 – 45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mozayeny (USPGPub 2002/0035493) in view of Roundtree (USPGPub 2001/0047264) as put forth in the non-final rejection mailed 31 December 2008.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
